

I have always been obsessed with magicians. Imagine, por ejemplo, poder usar una varita mágica, talking to animals whenever you want and even flying!... Unfortunately, that only happens in movies. For me, todo comenzó después de un evento de magos. People were cheering after every trick, but I was too amazed to even make a sound at all. Anyways, cada vez que terminaba un truco nuevo me convencía más y más que la magia era real! Can't wait to start practicing magic tricks so I can do that someday!
